Creating Better Systems of Care for Chronically Ill Older Adults: A Journey of Design, Implementation, and Evaluation

Kenneth D. Coburn, MD, DrPH, FACP

President, CEO and Medical Director, Health Quality Partners

Dr. Kenneth D. Coburn is the President, CEO, and Medical Director of Health Quality Partners (HQP), a non-profit research and development organization based in Doylestown, Pennsylvania, dedicated to improving population health outcomes through health care delivery redesign. He also serves as Population Health Advisor to the Doylestown Health system and as Medical Director for the Community Care Collaborative of Pennsylvania and New Jersey. New systems of care that improve population health can be created through the application of systems thinking and design, implementation science, and evaluation. In this talk, learn about a real-world example of such a journey undertaken by HQP.

Dr. Coburn received his BA from Brown University, his medical degree from the Columbia University College of Physicians & Surgeons, and completed his residency training in internal medicine at the Columbia-Presbyterian Medical Center in NY. He completed a fellowship in infectious disease at the Albert Einstein / Montefiore Medical Center in Bronx, NY, his MPH at the Mailman School of Public Health at Columbia University, and his DrPH at the University of North Carolina Gillings School of Global Public Health where he was awarded the Arthur B. Holzworth endowed scholarship in health leadership.
